### Key points:

- Lookup existing permits by address, permit number, issue date, ward, zone, subdivision, pin number, type, and customer address.
- Produce a listing of all inspectors entered in the program.
- Enter inspection appointment records and assign inspectors.
- Establish user defined inspection types.
- Print inspection forms.
- Print/reprint job cards for owners to display at property and for municipality.
- Option to produce a Contractor Distribution Copy of job cards.
- Print violation letters and record penalty charges.
- Print non-conforming certificates and Certificates of Compliance for completed permits.
- Produce month end reports listing fees and additional fees for the month and a management report.
- Produce a receipt of inspection for constructions i.e. deck, bathroom remodel.
- Establish and define refundable and non-refundable fees.
- Produce a listing of all fees entered in the program.
