# MAXIMIZE EFFICIENCY AND REVENUE WITH LOCiS CLOUD-BASED UTILITY BILLING

At LOCiS, we're here to make your utility billing simpler by providing a comprehensive, cloud-based utility billing management tool that performs a variety of functions for multiple user-defined services including Utility Billing production of bills and record of payments for water, sewer, gas, electric, refuse and more. LOCiS software is developed, managed and supported in the U.S.

LOCiS PERFORMS FOR YOU

DIRECT DEBIT AND CREDIT CARDS

Automatically debit a bank account or collection through third-party credit card processors.

RESIDENT WEB BASED ACCOUNT ACCESS

Partnerships in place to allow for secure resident web access to view, print and pay their bills.

BAR CODING

Produce bar codes for quick retrieval of account information in cash receipts and account master inquiries.

THIRD-PARTY AUTOMATED READING INTERFACE

Automated reading interfaces via LOCiS through 3rd party devices.

DEBT RECOVERY

State/Local Debt recovery and Lien Management.
